Metro Manila Subway Project – BGC Station Phase 1 of Advance Works

Dear Residents,

Please be informed that the Department of Transportation (DOTr) will commence **Phase 1 of the Advance Works** for the construction of the **Metro Manila Subway Project – BGC Station** within the **first quarter** of the year 2026.

Scope of Work – Advance Works (Phase 1)

- Tree cutting and earth balling
- Trial trench / partial excavation for identification of underground utilities
- Removal of above-ground utilities

Following the commencement of Phase 1 of the Advance Works, **partial lane closures with zoning** will be implemented along McKinley Parkway to maintain vehicle and pedestrian access.

We understand that these developments may cause temporary inconvenience. Rest assured that the Property Management Team is in close coordination with the agencies concerned to monitor the situation. Further advisories and traffic management updates will be issued as soon as official information is made available by the DOTr.

We appreciate your patience and cooperation. Thank you.

Engr. RJ Sebastian
Senior Engineering Manager
