

Dear Residents,

We would like to inform you about the construction of the **BGC Station for the Metro Manila Subway Project (MMSP)**. The BGC station will be built directly beneath McKinley Parkway, the road in front of Two Serendra, between Serendra and Market! Market!.

Please find below a summary of the information we have gathered so far, along with an outline of what to expect moving forward.

What is the status of the Subway Project?

Work has formally begun on the BGC Station as part of Contract Package 105 (CP 105), which covers 1.331 kilometers of tunnels in Barangay Fort Bonifacio. Based on contract disclosures, the BGC Station will be completed in approximately 67 months (roughly five years and seven months). If construction remains on schedule, the projected finish date is late 2031 or early 2032.

What does this mean for residents?

Phase 1: Advance Works (Imminent)

Preliminary works, including the removal of trees and the identification and relocation of underground utilities, are set to begin shortly. Please note that the commencement of tree cutting and earth balling activities is scheduled on June 8, 2026, subject to final confirmation and necessary approvals.

Phase 2: Full Road Closure (Projected Start: Q4 2026)

Phase 2 entails full road closure of McKinley Parkway, between 32nd and 26th Streets. This is currently projected to begin in Q4 2026, though the timeline remains subject to change based on the progress of other works.

Once the closure is in effect, the following Two Serendra access points will be affected:

Almond Tower: The McKinley pedestrian gate will be closed.

Belize and Callery Towers: The pedestrian gate, drop-off areas, and basement parking entrance and exit will all be closed.

Gates 1 and 2 along 11th Avenue will remain open. The Council is also studying the opening of the pedestrian gate along 26th Street as an additional access point for residents.

Phase 3: Extended Construction Period

Phase 3 of the construction project is expected to take approximately 5–6 years. The section of McKinley Parkway fronting Serendra will remain closed to all traffic.

What is being done by the Two Serendra Administration?

Our Property Management Office (PMO) and the District Council are in active communication with the Department of Transportation (DOTr) and its appointed contractor. We will provide updates as more information becomes available.

We understand the significant inconvenience this will be to our residents, particularly those in **Almond, Belize and Callery**.

Please be assured that we are actively working to identify mitigation measures and will communicate these as soon as they are finalized.

Thank you.
