All Residents

**ADVISORY ON TREE CUTTING AND EARTH-BALLING
ACTIVITIES FOR THE METRO MANILA SUBWAY PROJECT**

Dear Residents,

Greetings from the Administration Office!

We would like to inform all residents that the Department of Transportation (DOTr), through its contractor **Nishimatsu-DMCI Joint Venture (NCDMJV)**, will commence **Tree Cutting and Earth-Balling (TCEB) activities** in connection with the **Metro Manila Subway Project (MMSP) – Contract Package 105** beginning **22 June 2026**.

According to the advisory issued by NCDMJV, the activities are part of the preparatory works for the future Bonifacio Global City Station and will be undertaken pursuant to the permits issued by the Department of Environment and Natural Resources (DENR). The works will be conducted in staggered phases from **8:00 AM to 5:00 PM**, between **June 22 and September 26, 2026**, excluding Sundays and holidays.

Residents may experience the following during the implementation period:

- Partial lane closures in designated work zones along McKinley Parkway and surrounding areas;
- Temporary pedestrian rerouting near active work areas;
- Increased presence of construction personnel, traffic marshals, and work equipment;
- Possible construction-related noise, dust, and traffic delays in the vicinity.

The project contractor has advised that safety and environmental control measures will be implemented, including:

- Installation of activity information signboards;
- Safety barriers and work zone segregation;
- Pedestrian detours;
- Deployment of traffic and pedestrian marshals; and
- Water spraying for dust suppression.

We encourage residents, guests, and visitors to exercise caution when passing through affected areas and to allow additional travel time when entering or exiting the Bonifacio Global City vicinity.

For your reference, a copy of the official advisory issued by the DOTr project contractor, Nishimatsu-DMCI Joint Venture (NCDMJV), is attached to this circular.

Thank you.

Advisory on the start of tree cutting & earth-balling for MMSP CP 105

18 June 2026

Dear Stakeholders,

The Department of Transportation's (DOTr) Metro Manila Subway Project - Contract Package 105, with project area in the City of Taguig, will commence tree cutting and earth-balling (TCEB) activities on **22 June 2026**.

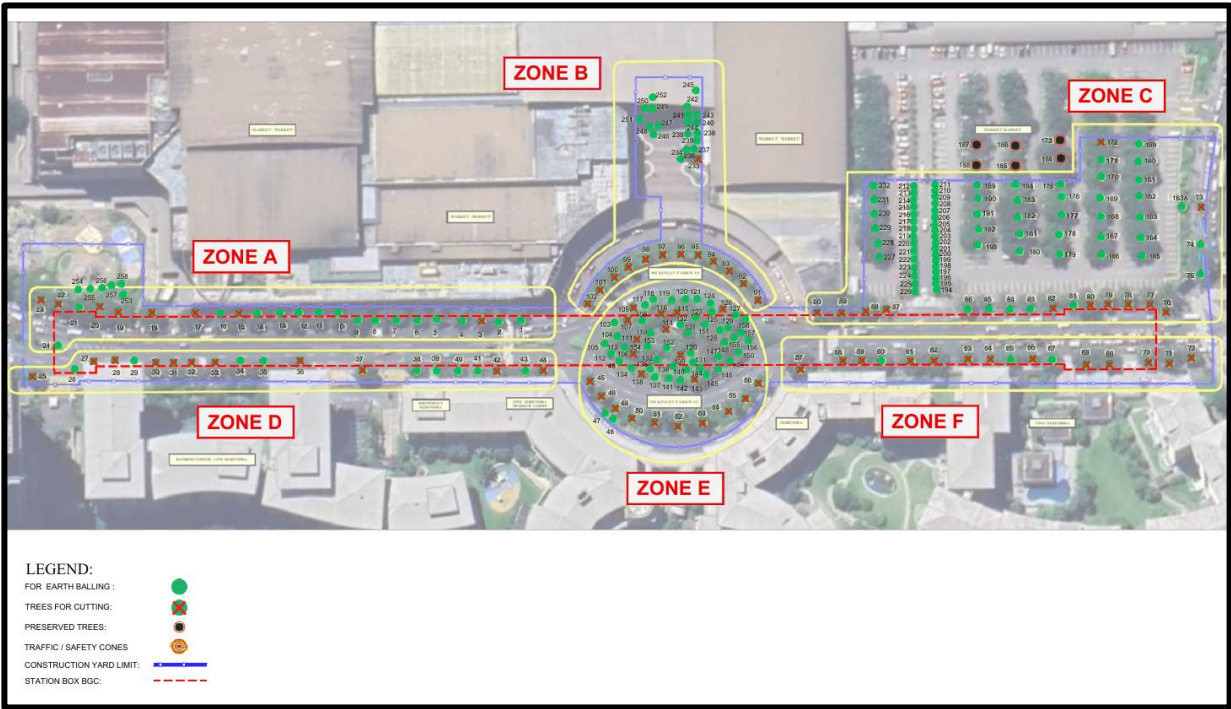

Our TCEB works proceed from the extension of the Special Tree Cutting and Earth-Balling Permit issued by the Department of Environment and Natural Resources (DENR), with **LPDD C/B/P Permit Nos. 2025-12-17-STCP-1396 and 2025-12-23-STCP-1407**.

Constructing underground railway stations necessitates clearing surface areas, which we commit to conduct with a firm view towards preservation. With relocation as the default course of action, cutting is limited to trees identified during the DENR's tree inventory validation as having low transplantation survival rates.

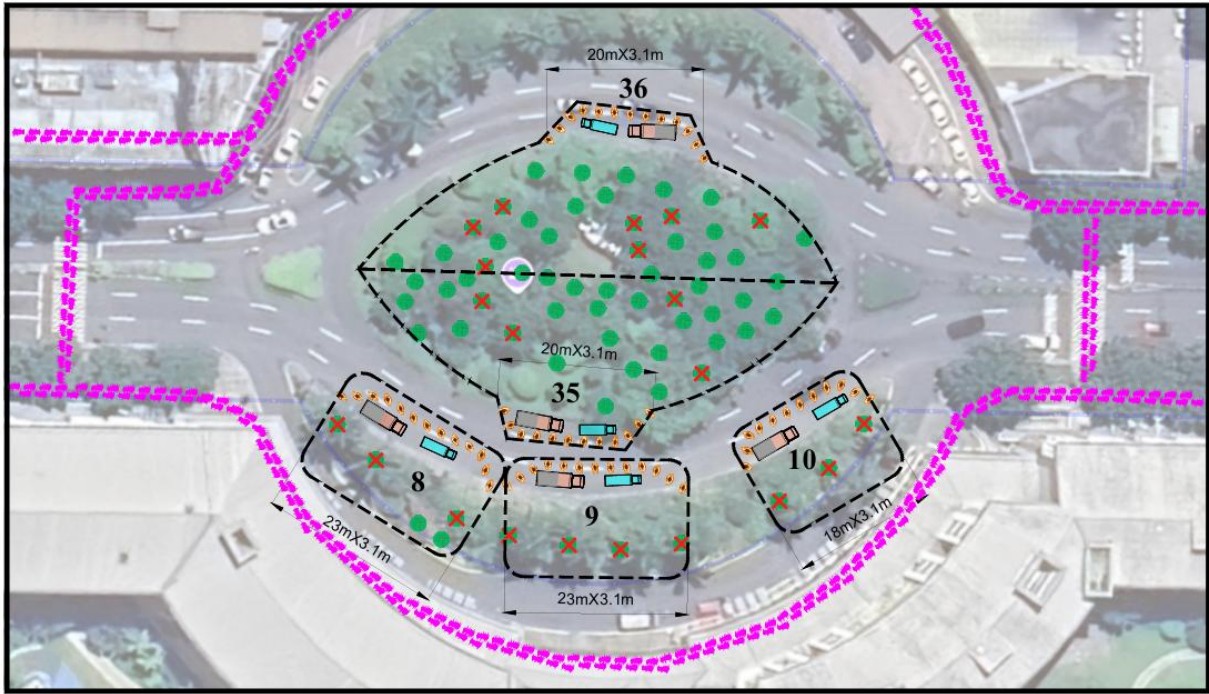

For the future Bonifacio Global City Station, a total of 266 trees along McKinley Parkway, at the Roundabout, Ayala Malls Market! Market!, and Park Triangle will be affected. Seventy-eight (78) trees will be cut down, while 188 are slated for relocation to new homes along University Parkway, at N2 Ramp, STI College Global City, The British School Manila, One Serendra, and Two Serendra in Bonifacio Global City; and the NCRPO headquarters at Camp Bagong Diwa, Taguig. Relocated trees will get structural braces, as needed, to withstand typhoon winds.

As your residential/office buildings are proximate to the site of the underground station, please be advised that TCEB works will run in staggered phases during daytime hours from **22 June to 26 September 2026**, except on Sundays and holidays. Our teams will be implementing zone control to minimize disruption.

BGCS Key Plan

Sample Sub-Zone

LEGEND:

FOR EARTH BALLING :

TREES FOR CUTTING:

PRESERVED TREES:

TRAFFIC / SAFETY CONES

CONSTRUCTION YARD LIMIT:

PEDESTRIAN ACCESS :

Partial lane closures in active sub-zones will be enforced for safe work operations, while pedestrian access will also be safety detoured away from work areas. Further, we are implementing the following safety measures:

- activity information signboards
- safety barriers
- pedestrian detours
- traffic marshals
- pedestrian marshals
- water spraying for dust control

In view of the above, kindly refer to the indicative TCEB schedule at the site of the Bonifacio Global City Station.

Zone	Location	TREE CUTTING				EARTH-BALLING			
		Qty	Start	End	Days	Qty	Start	End	Days
A	McKinley Road – Market! Market!	8	15-Jul-26	17-Jul-26	3	22	17-Jul-26	03-Aug-26	15
B	Market! Market!	13	13-Jul-26	14-Jul-26	2	19	14-Aug-26	17-Aug-26	3
C	Market! Market! Outside Carpark	12	09-Jul-26	11-Jul-26	3	7	11-Jul-26	16-Jul-26	5
	Market! Market! Carpark (Narra)					41	04-Aug-26	13-Aug-26	9
	Market! Market! Carpark (Anahaw)					33	18-Sept-26	25-Sept-26	8
D	McKinley Road – One Serendra	11	26-Jun-26	27-Jun-26	2	9	29-Jun-26	07-Jul-26	6
