METRO MANILA SUBWAY PROJECT UPDATES Tree Cutting Activities along McKinley Parkway

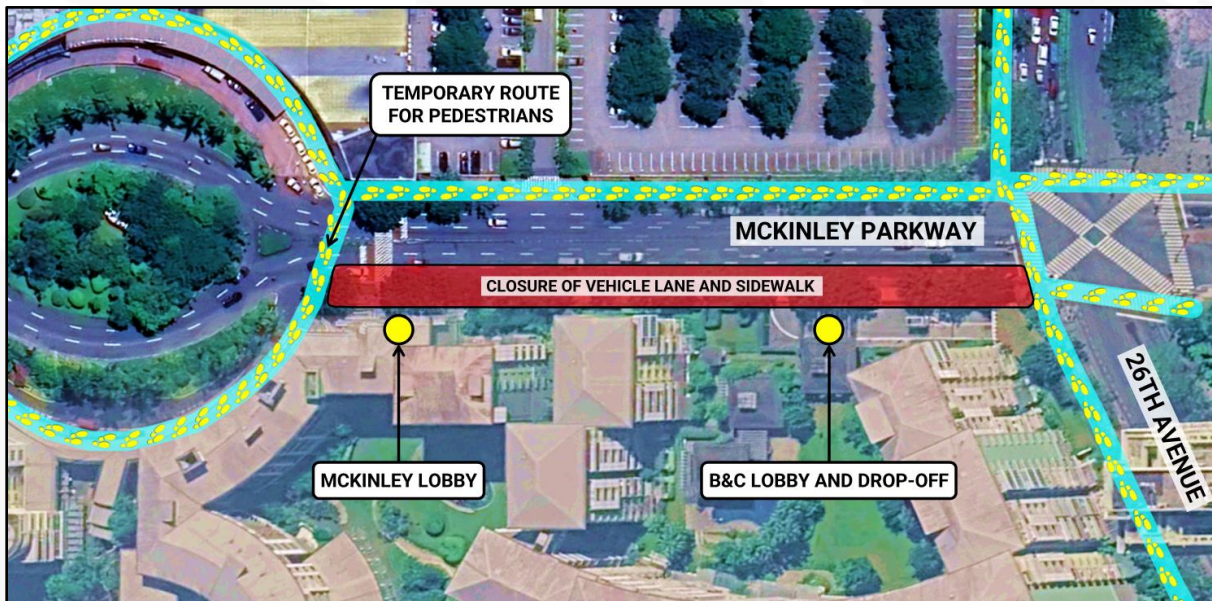

Dear Residents,

Greetings from the Administration Office!

We would like to update all residents that the **Tree Cutting and Earth-Balling (TCEB) Activities along McKinley Parkway**, as part of the Metro Manila Subway Project (MMSP), is scheduled to commence on **Monday, 20 July 2026 until Saturday, 25 July 2026 from 8:00 A.M. to 5:00 P.M.**

Residents may experience the following during the tree cutting period:

1. Partial closure of vehicle lanes near designated work zones along McKinley Parkway;
2. Temporary rerouting of pedestrian and vehicle access near active work areas;
 - Temporary closure of McKinley Lobby Pedestrian Access. Residents may use the Almond Veranda Lobby as alternative pedestrian access;
 - Temporary closure of Gate 3 (Belize and Callery Drop-off) entrance, exit, and vehicle drop-off. Vehicular entry and exit will be at Gate 2 (Almond Main Lobby and Vehicular Ramp) during this closure.
 - Temporary closure of sidewalk along McKinley Parkway (Two Serendra Low-rise Side);
3. Increased presence of construction personnel, traffic marshals, and work equipment;
4. Construction-related noise, dust, and traffic delays in the vicinity.

Vehicle Lane and Sidewalk Closure (Red); Temporary Route for Pedestrians (Blue)

Safety and environmental control measures will be implemented by the project contractor, which includes:

- Installation of activity information signboards;
- Safety barriers and work zone segregation;
- Pedestrian detours;
- Deployment of traffic and pedestrian marshals, and;
- Water spraying for dust suppression.

All Residents

METRO MANILA SUBWAY PROJECT UPDATES
Tree Cutting Activities along McKinley Parkway

The closure of the sidewalk along McKinley Parkway (Two Serendra Low-rise side) is intended to provide a safe and secure working space for the tree cutting activity. However, **Two Serendra Residents may seek assistance** from the contractor's flagmen **for access and passage to the nearest lobby**. We encourage residents to exercise caution when passing through active working areas and to allow additional travel time when entering or exiting the property.

The **Tree Cutting and Earth Baling (TCEB) Activity** is part of the **Metro Manila Subway Project (MMSP) – Contract Package 105** by the **Department of Transportation (DOTr)** through its contractor **Nishimatsu Construction – DMCI Joint Venture (NCDMJV)**. The activity, in accordance with the approved permits and safety protocols, will be supervised by the **Department of Environment and Natural Resources (DENR)**.

Thank you.
